GLOBAL HEALTH IN A RAPIDLY CHANGING WORLD

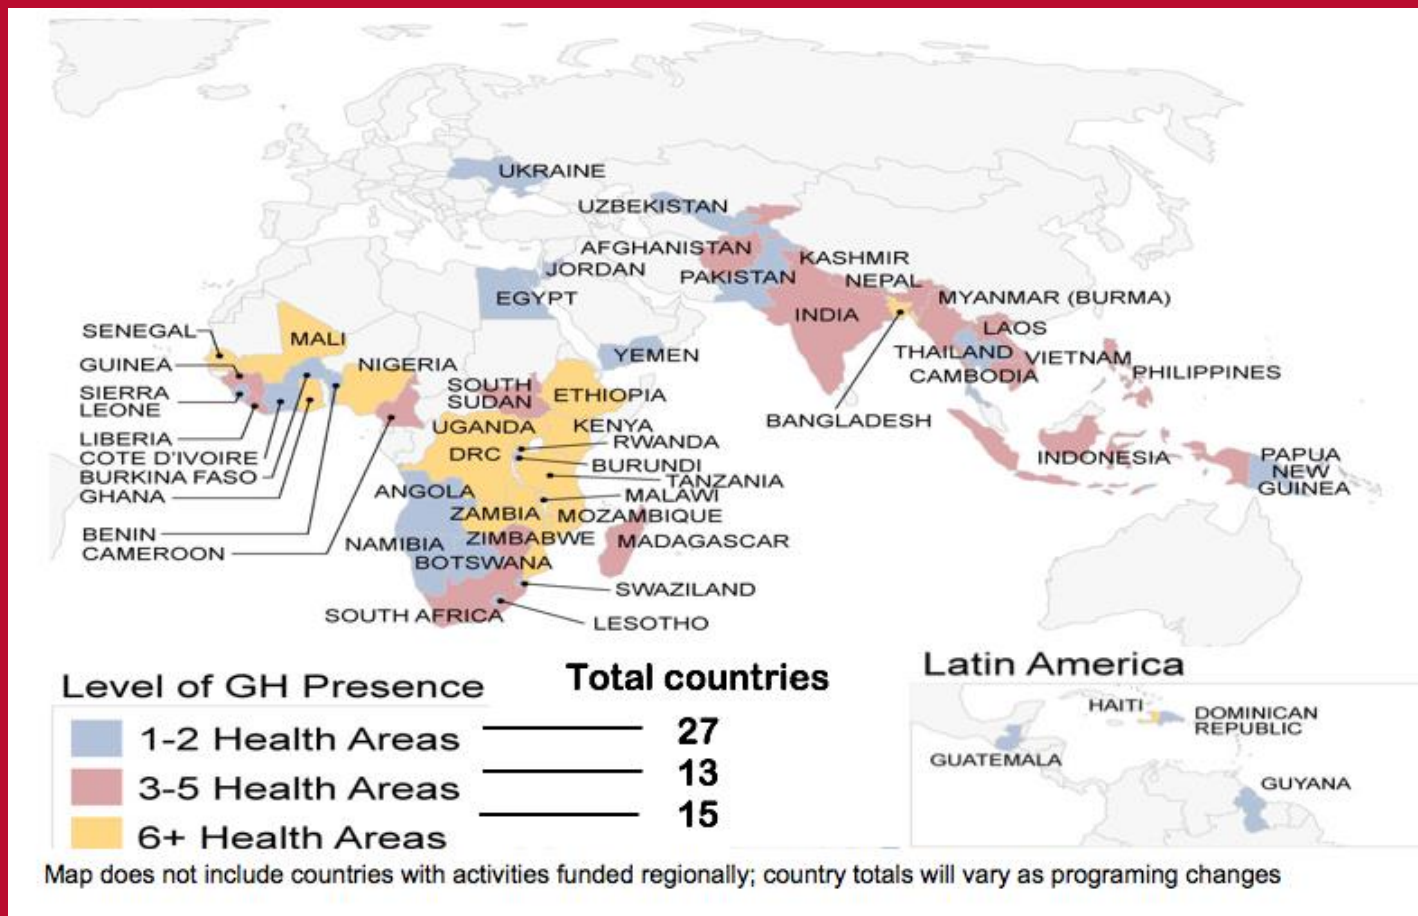

Irene Koek
Acting Assistant Administrator
Bureau for Global Health

Global Health Mini University 2017

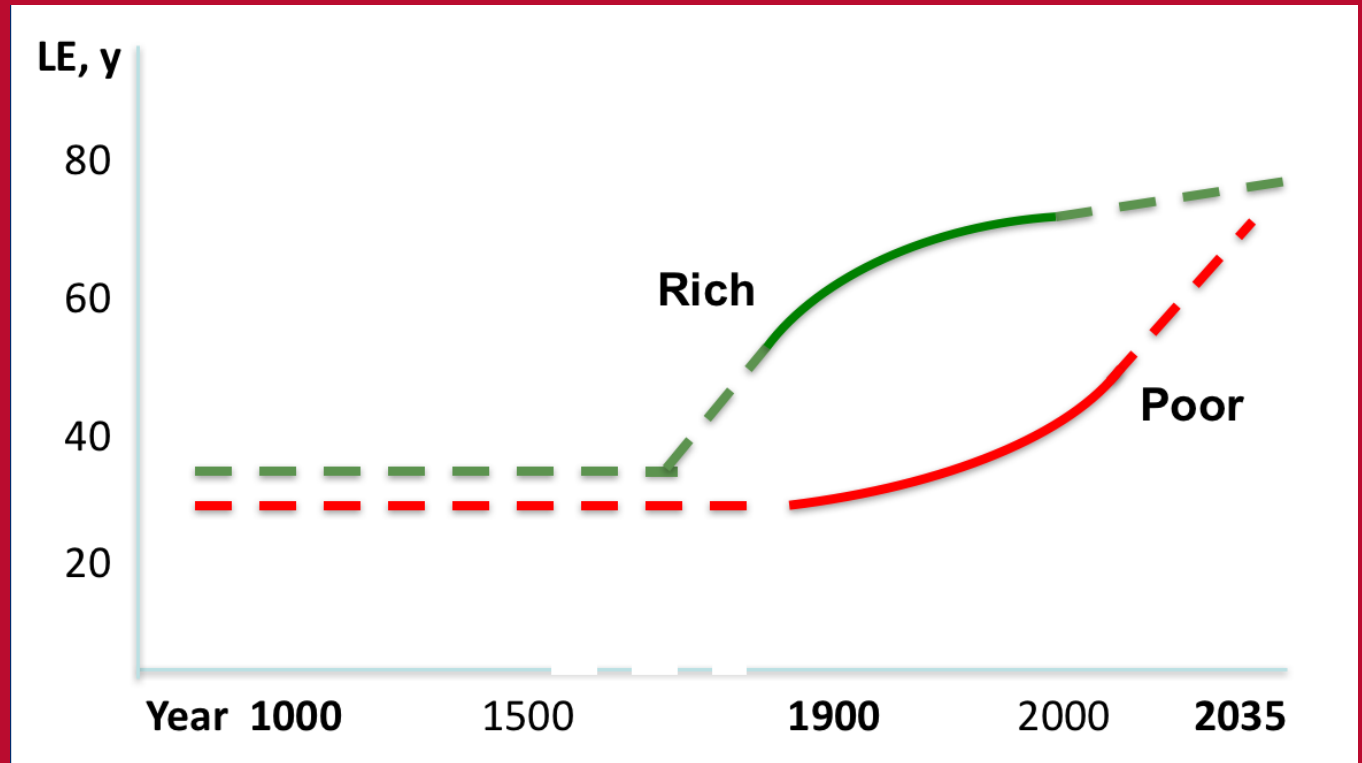

MOE-2013

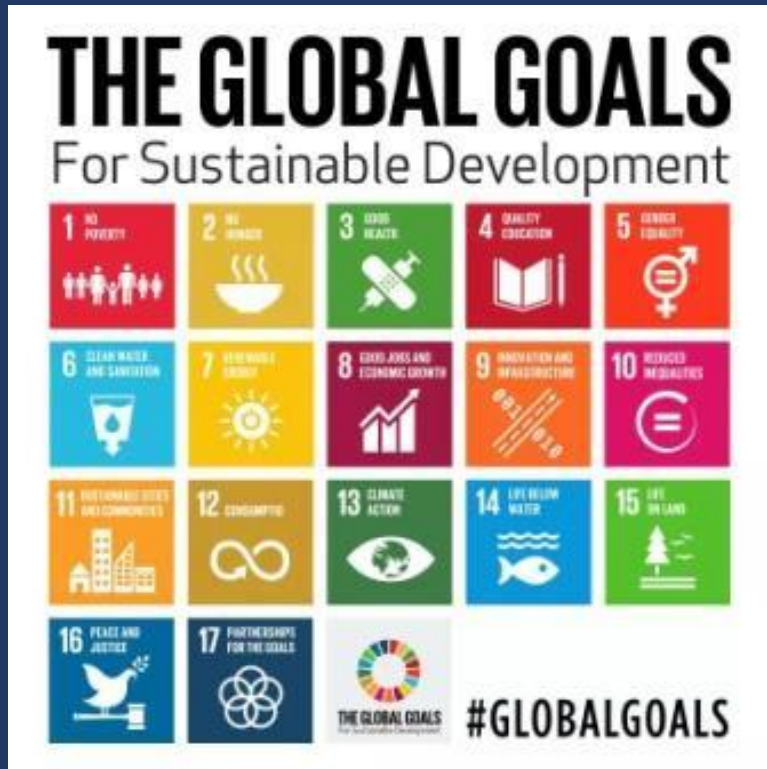

Map of USAID's Health Programs

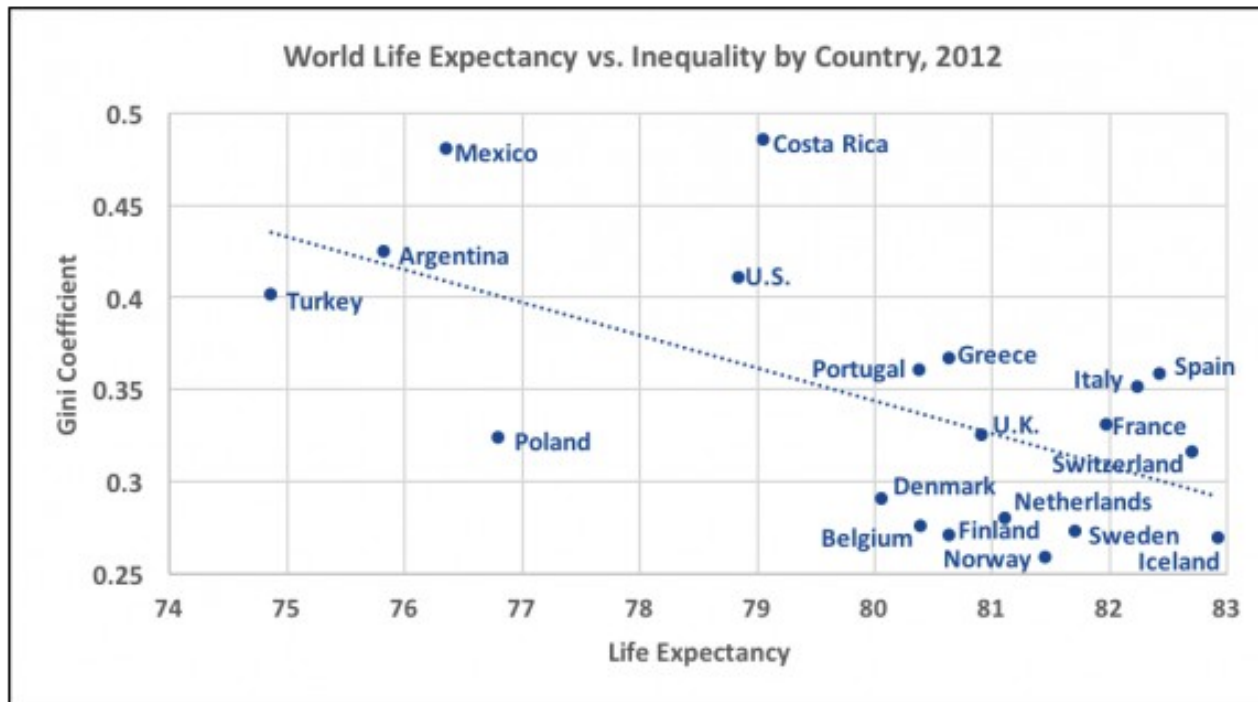

Tremendous progress has been made in Life Expectancy

But we have an unfinished Agenda . . .

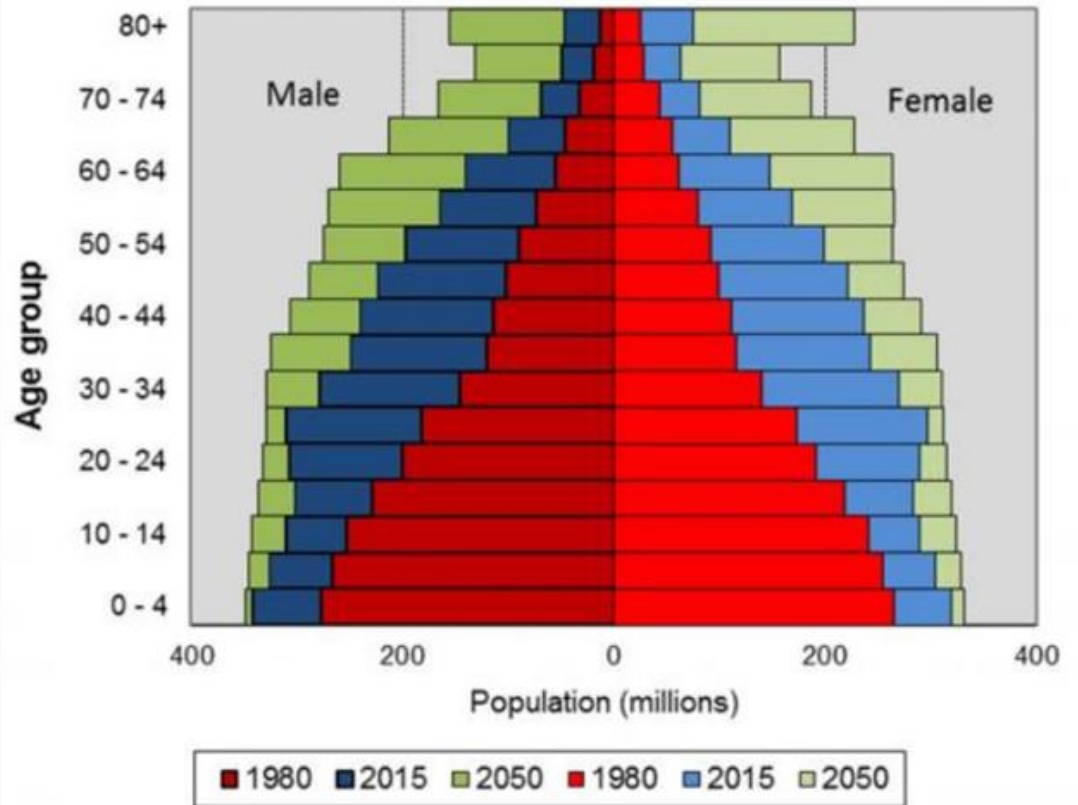

Cross-National Comparisons

Source: [The World Bank](#)

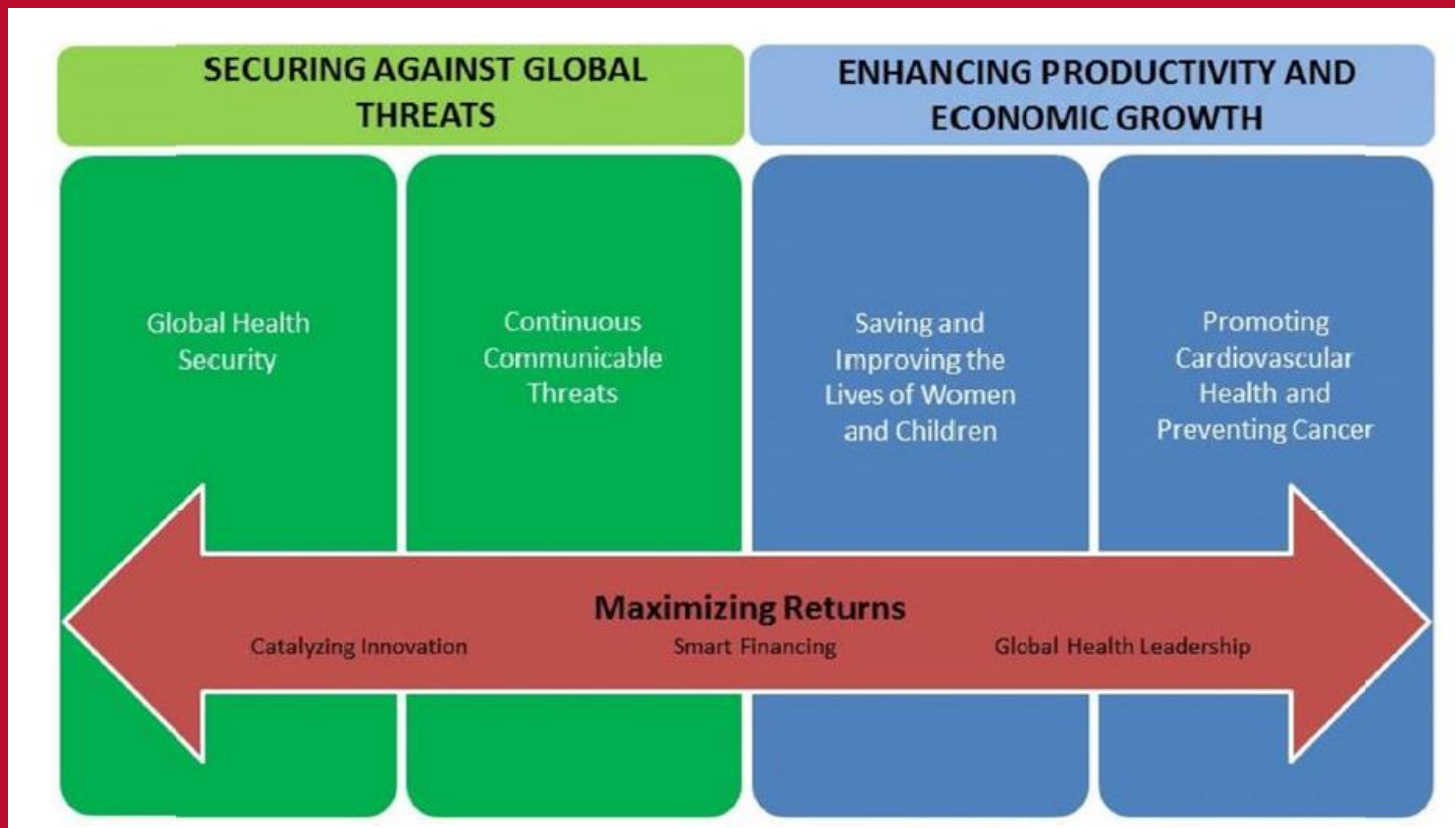

Older populations in wealthy countries and younger populations in developing nations

Figure 1: Global Demographics: From pyramid (1980) to bell (2015) to barrel (2050)

Source: Calculations by Emi Suzuki based on WDI 2014 and UN World Population Prospects 2012 Revision

Global Health and the Future Role of the United States

2017 Report by the National Academy of Sciences, Engineering & Medicine

Thank
You!

Engage with Mini-U
